

Press Release

“GTMH announces the commercial launch and availability of its fully seamless MPLS national network, and the partnership with Golden Myanmar Business Exchange”

Based on its carrier grade network, GTMH will provide, high availability IP core services across the nation including Software Defined Networking (SDN) and Network Facility Vitalization (NFV), a first in Myanmar

GTMH is also proud to commercially launch Myanmar's first Internet Exchange to provide low latency peering with all Tier 1 domestic carriers. This combined with already established wholesale Internet service provider partners, heralds the start of true internet-inter-working in the country.

GTMH is peered with all current International Gate Way services providers, allowing for a seamless transition from international to domestic services

In combination with its already established VSAT teleport in East Dagon, supplying both C band, KU band and supporting O3b technology, GTMH is the only provider in Myanmar with such range of services, available today.

GTMH in partnership with Golden Myanmar Business Exchange (GMBX), is today launching its Phase I Services for Cloud and Hosting facility based on the award winning Openstack architecture. Currently undergoing Friendly User Trials GTMH plans general

Located at its high availability TIA 942 compliant facility, GMBX provides wholesale IaaS, PaaS and SaaS infrastructure in a carrier grade environment, to Domestic Systems Integrators (SI), Licenced Domestic Operators and Enterprise customers.

GTMH is a leading communications and network service provider in Myanmar with one of the most complete service offerings in the market, providing wireless, fiber and vsat access combined in to a unique one stop shop solution set for their Clients. Services are already available in the Yangon region, these include key landmark sites such as Sakura Tower, Myanmar Plaza, Vantage Tower and has launched its nationwide rollout starting in Mandalay. With a unique blend of Myanmar and Foreign senior management, we continue our growth through innovative products and solutions, continuous investment to reinforce our key services and supporting our client's requirements.
